kaufmann and schwitters have built this text's reputation on clear and concise exposition, numerous examples, and plentiful problem sets. This traditional text consistently reinforces the following common thread: learn a skill, use the skill to help solve equations, and then apply what you have learned to solve application problems. This simple, straightforward approach has helped many students grasp and apply fundamental problem-solving skills necessary for future mathematics courses in an easy-to-read format. The eighth edition of *Intermediate Algebra* includes new and updated problems, revised content based on reviewer feedback, and a new function in ilrn. This enhanced ilrn homework functionality was designed specifically for kaufmann schwitters users. Textbook-specific practice problems have been added to ilrn to provide additional algorithmically generated practice problems along with useful support and assistance to solve the problems for students.

The student solutions manual provides worked-out solutions to the odd-numbered problems in the text.

The annotated instructor's edition provides the complete student text with solutions next to each respective exercise along with answers to the classroom examples.

The annotated instructor's edition provides the complete student text with solutions next to each respective exercise along with answers to the classroom examples.

The student solutions manual, co-authored by Karen I. Schwitters, contains fully worked-out solutions to all of the odd-numbered end-of-section exercises as well as the complete worked-out solutions to all of the exercises included at the end of each chapter in the text, giving students a way to check their answers and ensure that they took the correct steps to arrive at an answer.

Designed for the elementary algebra course in which an online homework system is a requirement, *Beginning Algebra: Hybrid First Edition* provides the content needed for the traditional lecture-based course while offering the convenience of a more brief and more affordable text. The book employs kaufmann and schwitters' straightforward three-step approach to problem solving, which guides students in learning a skill, practicing the skill to solve equations, and then using the equations to solve applications problems.

Beginning Algebra employs a proven three-step problem-solving approach: learn a skill, use the skill to solve equations, and then use the equations to solve application problems. To keep students focused on building skills and reinforcing them through practice, this simple and straightforward approach in an easy-to-read format has helped many students grasp and apply fundamental problem-solving skills. The carefully structured pedagogy includes learning objectives, detailed examples to develop concepts, practice exercises, an extensive selection of problem set exercises, and well-organized end-of-chapter reviews and assessments. The clean and uncluttered design helps keep students focused on the concepts while minimizing distractions. Problems and examples reference a broad array of topics as well as career areas such as electronics, mechanics, and health, showing students that mathematics is part of everyday life. Also as recommended by the American Mathematical Association of Two-Year Colleges, many basic geometric concepts are integrated in problem-solving scenarios. The text's
